

# Ishika Rathod

New York, NY | (607)-697-5735 | [ir289@cornell.edu](mailto:ir289@cornell.edu) | [LinkedIn](#) | <https://ishikarathod.github.io/>

## PROFESSIONAL SUMMARY

Data-driven analytics and business analysis professional with experience across consulting, data analytics, and process improvement. Skilled in statistical modeling, financial and ROI analysis, dashboard development, and requirements gathering to turn complex data into actionable business insight; experienced with SQL, Python, Power BI/Tableau, Agile/SDLC workflows, and cross-functional stakeholder engagement.

## EDUCATION

### Cornell University, Ithaca, New York

May 2026

Master of Engineering, Engineering Management | GPA: 3.88

*Relevant Coursework: Economics and Finance | Financial Statement Analysis | AI for Business Applications | Data Driven Marketing*

### Dr. Vishwanath Karad MIT World Peace University, Pune, India

June 2025

B.Tech., Computer Science Engineering | GPA: 3.77 | Ranked 1st among 100 students (50% merit scholarship)

## RELEVANT EXPERIENCE

### Hazen and Sawyer, New York

Jan 2026 – May 2026

*Data & Strategy Consultant*

- Built a quantitative scoring model synthesizing 40+ regulatory frameworks across 10+ U.S. markets, mapping and analyzing regulatory data to prioritize 4 high-potential markets for executive decision-making
- Conducted ROI and profitability analysis through financial modeling and structured due diligence; translated data findings into executive-ready narratives for Legal, Finance, and Operations stakeholders
- Partnered with cross-functional teams to identify emerging market opportunities via industry trend analysis, driving continuous process improvement in site-selection methodology

### ShipDelight Logistics Technologies, Mumbai, India

Jan 2025 – May 2025

*Data Analyst Intern*

- Delivered an 18% operational efficiency gain by designing and automating SQL/Python data pipelines across 940K+ records, streamlining analytics workflows and synthesizing results for senior leadership
- Quantified a 12.7% revenue growth opportunity through time-series forecasting models; partnered with supply chain and business teams to translate data insights into strategic recommendations

### Zymr Systems Pvt. Ltd, Pune, India

June 2024 – Dec 2024

*Business & Data Analyst Intern*

- Improved forecast accuracy by 6% on 1M+ records using Random Forest and gradient boosting models, supporting performance-metrics tracking and reporting for senior stakeholders
- Built Power BI/Tableau dashboards adopted across 3+ business teams for KPI monitoring, trend analysis, and self-service reporting
- Reduced data inconsistencies by 15% through quality-assurance validation pipelines, enabling independent market and performance analysis across business teams

## RELEVANT PROJECTS

### Predictive Analytics for Bias Detection in Hiring Data, Cornell University

Sep 2025 – Dec 2025

- Built an end-to-end machine learning pipeline analyzing 500+ candidate records, applying supervised learning, decision trees, SVM, and neural networks to achieve ~90% bias-detection accuracy
- Designed experimental test frameworks and applied A/B testing and statistical analysis to validate model hypotheses, presenting findings clearly to technical and non-technical audiences

### Process Automation for Clinical Documentation (NLP/LLM Analytics)

Jan 2025 – May 2025

- Gathered requirements directly from clinical end users and scoped a data pipeline using LLMs (OpenAI), NLP, and deep learning (Whisper) to automate documentation workflows
- Reduced manual documentation effort by 99.8% and achieved 94% model accuracy through iterative testing and continuous-improvement feedback loops with end users

## SKILLS

- **Analytical & Statistical Tools:** Python, R, SQL, Tableau, Power BI, Matplotlib, Seaborn, SAS
- **Machine Learning & Modeling:** Regression Modeling, Random Forests, Decision Trees, Gradient Boosting, SVM, Neural Networks / Deep Learning, NLP, Time-Series Forecasting, A/B Testing, Predictive Modeling, Model Validation & Monitoring
- **Business & Analysis Skills:** Process Mapping, Value Stream Mapping, Process Analysis & Design, ROI Analysis, Requirements Gathering, Change Management, Continuous Improvement, Stakeholder Engagement, User Research, Quality Assurance, Agile/SDLC
- **Other Tools:** Jira, SAP (ERP), Git/GitHub, Microsoft Office Suite, Google Workspace
- **Languages:** English (Native/Professional), Hindi (Native/Professional), German (Fluent)

## LEADERSHIP & ACHIEVEMENTS

- **Sponsorship Lead, BigRed Hacks** — Raised \$15,000+ in sponsorships for Cornell's flagship hackathon, driving partnerships with industry leaders through targeted outreach
- **Teaching Assistant, Cornell Engineering** — Graded assignments and gave feedback for Managing a Culture of Innovation and Project Management courses
- **Published Researcher, AMCIS 2025** — Co-authored peer-reviewed paper on Deep Learning for Customer Segmentation, accepted in the top 25% of global submissions
- **PR & Events Lead, Computer Society of India, MIT WPU** — Led 4+ campus events, building cross-functional collaboration and communication skills across a 100+ student community
- **Logistics Lead, NLC Bharat** — Coordinated end-to-end accommodation and logistics for 65+ senior dignitaries under tight timelines
